Explanation of Levels

Mommy & Me (Age 4 and Under)

A low profile activity where parent joins their child under the supervision of an instructor for a water acclimation activity program.

Level 1 – Water Introduction (2½ - 5 years old)

May or may not have ever been in the water before and are unable to swim. Need assistance in water that is over their heads. May be afraid of the water. Instructors will teach them how to maneuver through the water and how to put their head under water as well as their entire body.

Level 2 – Primary Skills (4 - 6 years old)

Basic swimming ability. Children have gone through a water introduction course. They are comfortable in water that they can stand in. They are comfortable being without their parents and around other children. They will be taught to use a kickboard and proper kick, how to use the wall and to use a proper free style stroke, and how to float and glide through the water.

Level 3 – Stroke Refinement (5 - 7 years old)

Students have successfully passed Levels 1 and 2 and can demonstrate basic floating techniques and principles behind the free style stroke. They may not be able to perform these tasks well, but they can demonstrate knowledge of them. They will be taught the free style stroke, back stroke and beginnings of the breast stroke.

Level 4 – Stroke Development (6 - 8 years old) – Efficiency of strokes, flip & open turns, diving

Level 5 – Pre-Swim Team Clinic (9 years old & up) – Breakout, starts, turns, drills, interval training

If children cannot perform these tasks, the instructor can and will move them to a lower class.
